

## **VIVA ranked among APAC's Top 25 Unified Communication Solutions providers**

**CHENNAI, 4 April 2018** — APAC CIOoutlook recently announced APAC's Top 25 Unified Communication Solutions (UCS) providers for the year 2017. VIVA was among the companies chosen for this prestigious ranking, due to its continuing focus on helping organizations improve productivity through its UCS offerings.

The list, which is compiled by a distinguished panel of industry experts and CIOoutlook's editorial board, highlights some of the most prominent UCS providers in APAC who are capable of helping enterprises improve their topline by moving beyond transactional communication.

CIOoutlook's editorial team announced, "These organizations have successfully catered to enterprise communication and collaboration, keeping up with the evolving trends. The organizations featured are some of the most prominent ones in the industry, chosen on the basis of their comprehensive range of offerings, infusing cost-effectiveness and inducing operational efficiency. The aim of this proposed list is to help corporations find a befitting unified communications solution provider that helps in achieving their set business goals."

"VIVA is honored to be included in CIOoutlook's list of Top 25 UCS providers in APAC," said Sri Sampath, CEO of VIVA Communications. He further added, "Being named on this list not only recognizes our UCS offerings, but also our commitment to helping customers communicate and collaborate effectively without having to compromise on features."

-End-

### **About VIVA**

VIVA Communications is a provider of converged communication solutions servicing voice, Internet, video, and next generation communication needs of enterprises and consumers in the IP space. VIVA has serviced over 250 businesses across India and the UK since its inception in 2007.

VIVA's cloud offerings include voice telephony, home working, and conferencing solutions. In addition, VIVA provides mobility, IoT, and network-level optimization. Most of our solutions are vertical-specific with key offerings for education, retail, healthcare, and services.
